

Quality Assurance CAIP Grader

Location: Hermiston, Oregon

Position Description:

AgReserves, Inc. (ARI) is a multi-national, multi-corporate company that operates investment farms and ranches throughout the world. The Quality Assurance CAIP Grader works under the direction of the Quality Assurance Supervisor. The purpose of this position is to provide inspection by qualified onion inspectors. The Quality Assurance Grader is trained in an on-the-job setting by experienced senior inspectors or supervisory personnel until he or she is a judge of onion quality. Onions are graded according to technically written federal and state standards and the inspector must become an expert in these standards.

Duties and Responsibilities:

- Determines representative sample of onions presented for inspection according to federal or state guidelines.
- Draws samples of onions to be inspected from containers, trucks or storage.
- Applies grading factors through the use of scales, sizing rings, knife, and other equipment in the inspection of onions for fresh shipment or for processing according to established federal and/or state standards, export requirements or purchase contracts.
- Records notes and writes certificates of grade or inspection reports with all pertinent information on the kind of product, variety, brand, manifest, car or truck number, container size, etc. Certificates must be legible and admissible as evidence in U.S. and Oregon courts or law.

Skills and Education Required:

- High school diploma or GED equivalent
- Team oriented and hard work ethic, strong communication and interpersonal skills
- Excellent troubleshooting skills and desire to accomplish goals

Benefits:

Excellent benefit package includes: medical, dental, retirement plans (401k and other retirement plan), flexspending, and other miscellaneous benefits.

AgReserves, Inc. is an equal opportunity employer.
