

Job Title: Information Security Manager

Location: Salt Lake City, UT

Company Overview:

AgReserves, Inc. is a multi-national, multi-corporate company that operates investment farms and ranches throughout the world.

Description:

We have an exciting opening for an Information Security Manager. This new position will be a member of the headquarters Information Security Team reporting to the IS Director. The person filling this position will be responsible for reducing cyber risks to the organization as well as detecting and responding to any security incidents. We need someone that has a passion for IS security, stays current on IS trends and technology, and strives for continuous improvement. Training and developing team members are another key component of this role. As with all positions, this person will also be expected to assist with other duties and assignments as delegated by his/her supervisor.

Skills/Education Required:

- A Bachelor's degree in information technology, business administration or a technology-related field or equivalent experience
- Advanced degree or five plus years of experience in a combination of risk management, information security and IT or Operational Technology jobs
- Cybersecurity specific certifications such as CISSP, CISM, or GIAC
- Must be a critical thinker with strong problem-solving skills.
- Sound knowledge of business management and a working knowledge of information security risk management and cyber technologies.
- Poise and the ability to act calmly and competently in high-pressure high-stress situations.
- Five plus years of information technology management or similar experience
- Experience working and communicating with senior and executive management
- Ability to communicate complex concepts to technical and non-technical colleagues
- Experience with project management and prioritizing a variety of complex tasks
- Several years of information technology management or similar experience
- Experience working and communicating with senior and executive management
- Ability to communicate complex concepts to technical and non-technical colleagues
- Experience with project management and prioritizing a variety of complex tasks

Benefits:

Salary is competitive and will be based on experience. Full-time employees receive excellent benefits including: Medical, Dental, Group Term Life, Disability, Pension Benefits (401K and Defined Contribution Plan) and Flex-Spending. We offer paid vacation and sick time, paid parental leave and tuition reimbursement.
